## Technology Contract Usage 2023-2024

MHEC **CONTRACTS** leverage purchasing power and simplify the procurement process to save institutions time and money. The contracts provide competitive solutions established in accordance with public procurement laws, thereby negating the institution's need to conduct a competitive sourcing process. MHEC contracts offer a ready-to-use solution with the ability to tailor the already negotiated contract to match the institution's specific needs and requirements. Smaller institutions benefit by negotiating from the same pricing and terms normally reserved for larger institutions. Additionally, because of MHEC's statutory status, these contracts can also be adopted for use by K-12 districts and schools, as well as cities, states, and local governments.
