

Ohio

The Midwestern Higher Education Compact brings together leaders from 12 Midwestern states to strengthen postsecondary education and promote regional economic vitality.

MHEC leverages the knowledge and expertise of postsecondary leaders to generate collaborative solutions to challenges in higher education.

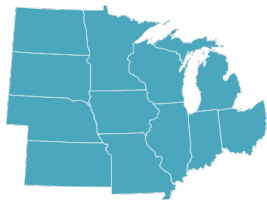

MHEC's contracts and programs save colleges, universities, and students in its member states valuable time and millions of dollars annually.

MHEC research and policy initiatives support workforce readiness and improve the quality, accessibility, and affordability of postsecondary education.

### About the Compact

MHEC was established in the early 1990s through the enactment of legislation recommended by the Midwestern Legislative Conference of The Council of State Governments. MHEC is funded by member state commitments, program income, and foundation grants. Member states are Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin. Ohio enacted authorizing legislation in 1991 to join MHEC.

# How MHEC Benefits Ohio

Ohio received a 195-fold return on its MHEC membership commitment of \$115,000 in 2024-2025.

Midwestern-State Authorization Reciprocity Agreement (M-SARA) for distance education savings	\$20,125,456
Technology savings	\$2,319,096
Capacity building support (state grants, convenings, scholarships and travel grants)	\$17,862
<b>TOTAL</b>	<b>\$22,462,414</b>

## New Upcoming Savings & Financial Opportunities

- Each member state is eligible for a Strategic Impact and Innovation Grant of up to \$250,000 over two years from MHEC to advance innovative ideas and solutions in higher education.
- MHEC will produce an estimated \$1.9 million in savings for the region in 2025-26 on student health insurance due to participation growth in a contract with UnitedHealthCare – StudentResources. Five Ohio institutions currently participate in MHEC’s contract: Bowling Green State University, Cleveland State University, Kent State University, The Ohio State University, and University of Cincinnati Main Campus.

## Additional Savings for Ohio Students & Families

The Midwest Student Exchange Program (MSEP) has helped students and families save millions of dollars by making it more affordable for non-resident students to attend out-of-state colleges and universities. This program is currently being reviewed in response to changes in tuition reciprocity practices across the region.

# Ohio Engagement with MHEC Policy Initiatives & Capacity-Building Opportunities

<b>Open Educational Resources (OER)</b>	<ul style="list-style-type: none"> <li>▪ MHEC provided a \$10,000 grant to OhioLINK to support professional development for OER advocates ahead of the virtual OpenCon Ohio Conference.</li> <li>▪ Six Ohio OER leaders attended MHEC’s OER Summit.</li> </ul>
<b>Dual Enrollment</b>	<ul style="list-style-type: none"> <li>▪ Numerous Ohio higher education leaders participated in MHEC’s July State Policy Workshop to advance dual enrollment efforts in the state.</li> <li>▪ MHEC is supporting the development of goals for College Credit Plus.</li> <li>▪ MHEC’s work is contributing to Ohio’s participation in the High School Alliance Next Phase of Dual Enrollment Policy Cohort.</li> </ul>
<b>Access &amp; Affordability</b>	<ul style="list-style-type: none"> <li>▪ Leaders from numerous Ohio state agencies, colleges and universities, nonprofit and philanthropic organizations attended MHEC’s FAFSA Summit.</li> <li>▪ Ohio leaders also participated in several other webinars to address issues and opportunities related to college access and affordability.</li> </ul>
<b>Technologies Community</b>	<ul style="list-style-type: none"> <li>▪ Seven higher education tech leaders from across Ohio actively participate in the Technologies Community.</li> </ul>

## Research Requests

MHEC’s policy and research team provided a detailed report in response to requests from Ohio higher education leaders and legislators on the following topics:

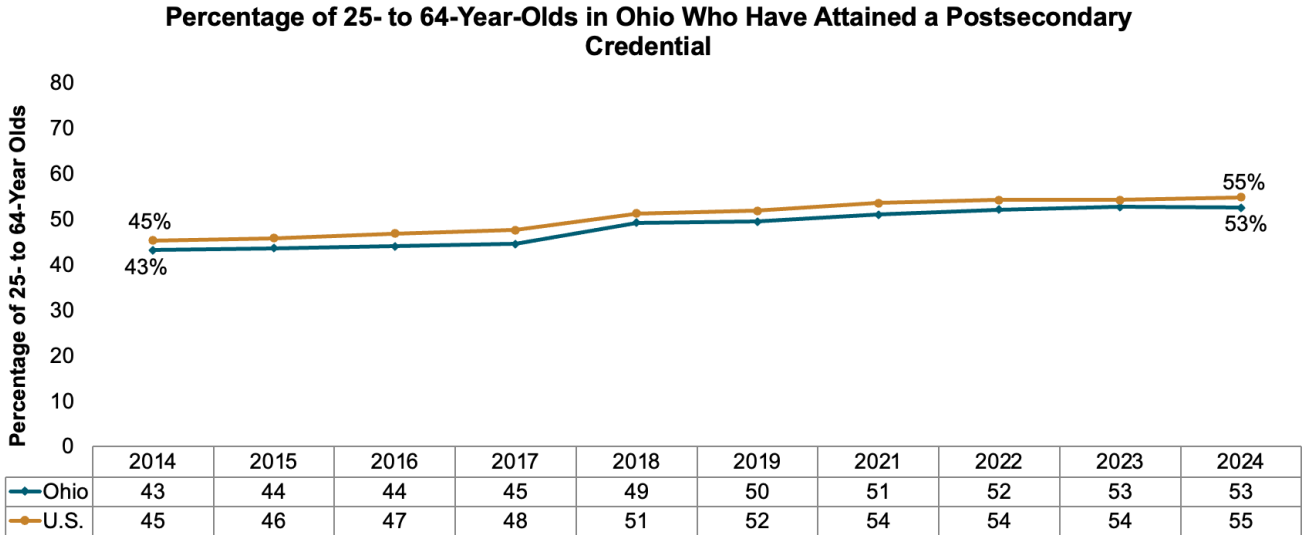

- Information on Universal FAFSA
- Comparison of 2024 to 2023 member states’ tuition, fees, and room and board expenses
- Full-time enrollment changes at public two-year institutions

MHEC also provided a State Performance Update and interactive dashboards that included numerous indicators for higher education in Ohio. Explore analytics at <https://mhec.org/what-we-do/policy-research/mhec-interactive-dashboard>.

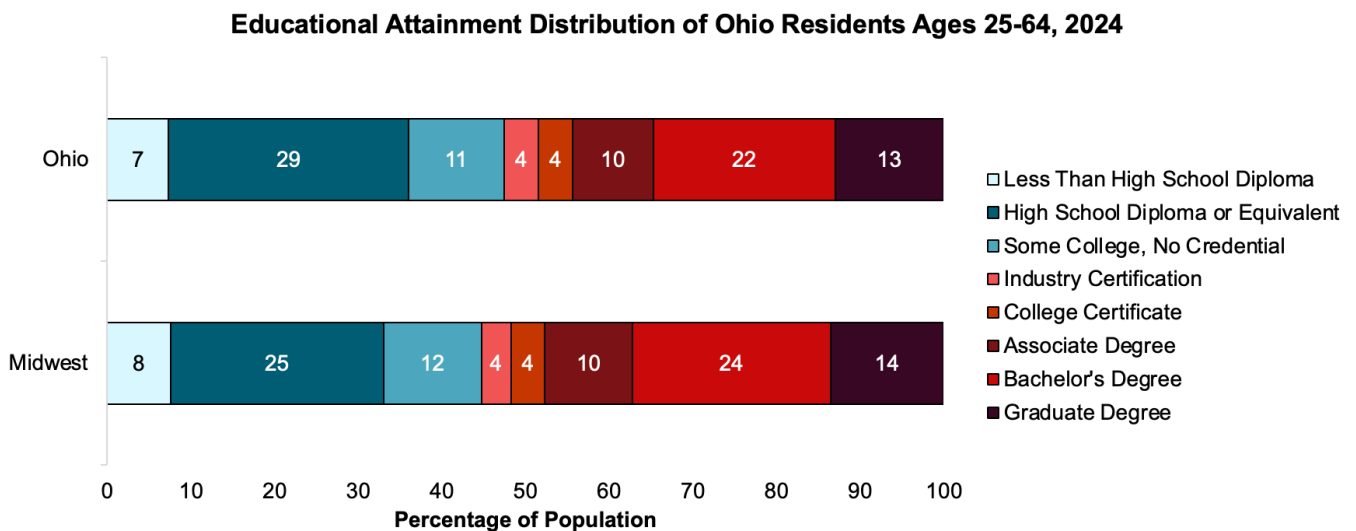

# Key Indicators for Higher Education in Ohio

**ATTAINMENT:** Ohio’s postsecondary attainment rate has increased over the past decade. About 53% of Ohioans have a postsecondary certificate or higher, compared to 55% nationally.

Source. Lumina Foundation. (2026). *A Stronger Nation*. Note. The attainment estimates include postsecondary certificates. Since 2018, the attainment estimate includes industry-recognized certifications. 2020 estimates are not available due to sampling problems that occurred during the 2020 administration of the American Community Survey. Lumina’s methodology for short-term non-degree credentials includes only certificates and certifications that meet its value threshold of earning at least 15% above the national median annual wages of a high school graduate. The reported share of adults whose highest credential is a certificate or certification may thus be underestimated. Registered apprenticeship completion certificates outside of a postsecondary institution are not captured in Lumina’s attainment measure. Explore more on the [MHEC Interactive Dashboard](#).

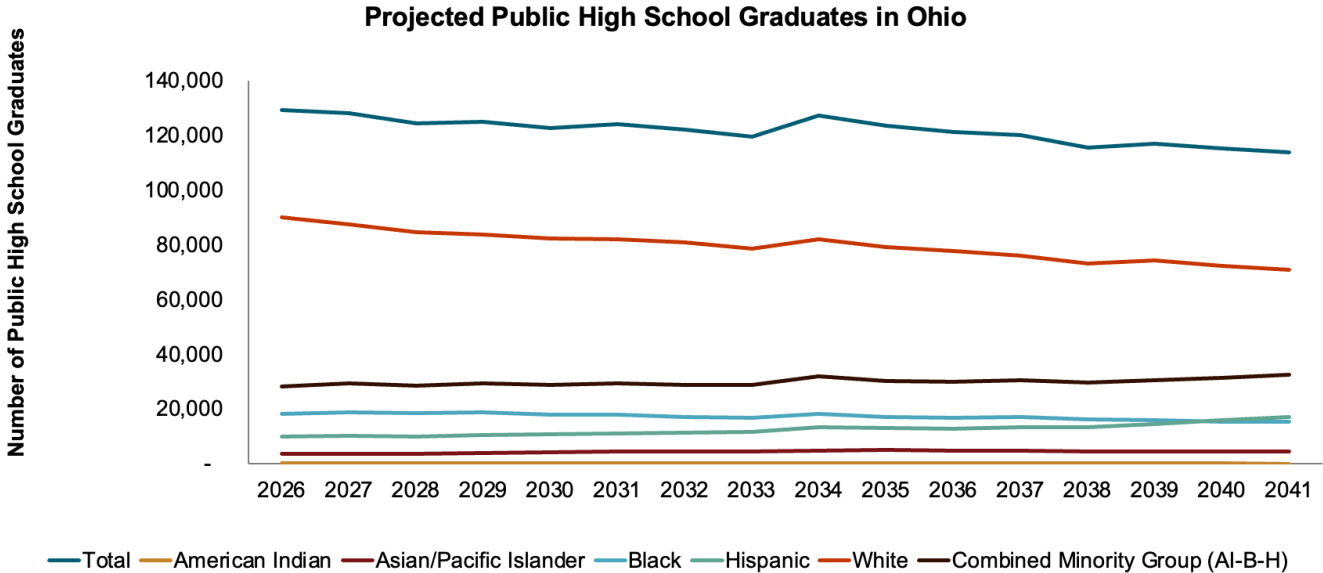

**ATTAINMENT:** Ohio residents have attained various types of postsecondary credentials, ranging from industry certifications and college certificates to bachelor’s and graduate degrees; 47% of residents do not have a credential beyond high school.

Source. Lumina Foundation. (2026). *A Stronger Nation*. Note. Lumina’s methodology for short-term non-degree credentials includes only certificates and certifications that meet its value threshold of earning at least 15% above the national median annual wages of a high school graduate. The reported share of adults whose highest credential is a certificate or certification may thus be underestimated. Registered apprenticeship completion certificates outside of a postsecondary institution are not captured in Lumina’s attainment measure. Explore more on the [MHEC Interactive Dashboard](#).

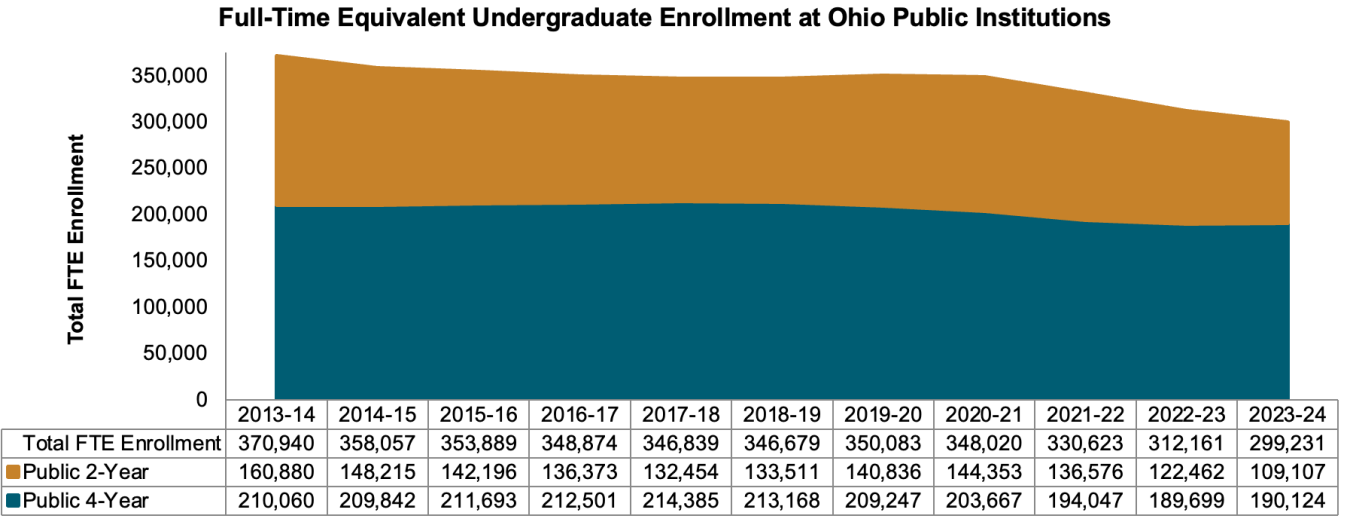

**ENROLLMENT POOL:** The number of high school graduates in Ohio is projected to decline over the next decade, driven by a decrease among White graduates, while the number of graduates in the combined minority group is expected to increase.

Source: WICHE. (2024). *Knocking at the College Door*. The combined minority group (AI-B-H) comprises American Indians, Blacks, and Hispanics. The estimates exclude home-schooled students. Explore more on the [MHEC Interactive Dashboard](#).

**ENROLLMENT:** Undergraduate enrollment has declined sharply since 2020-21 at public two- and four-year institutions in Ohio, though enrollment began to stabilize at four-year institutions in 2023-24.

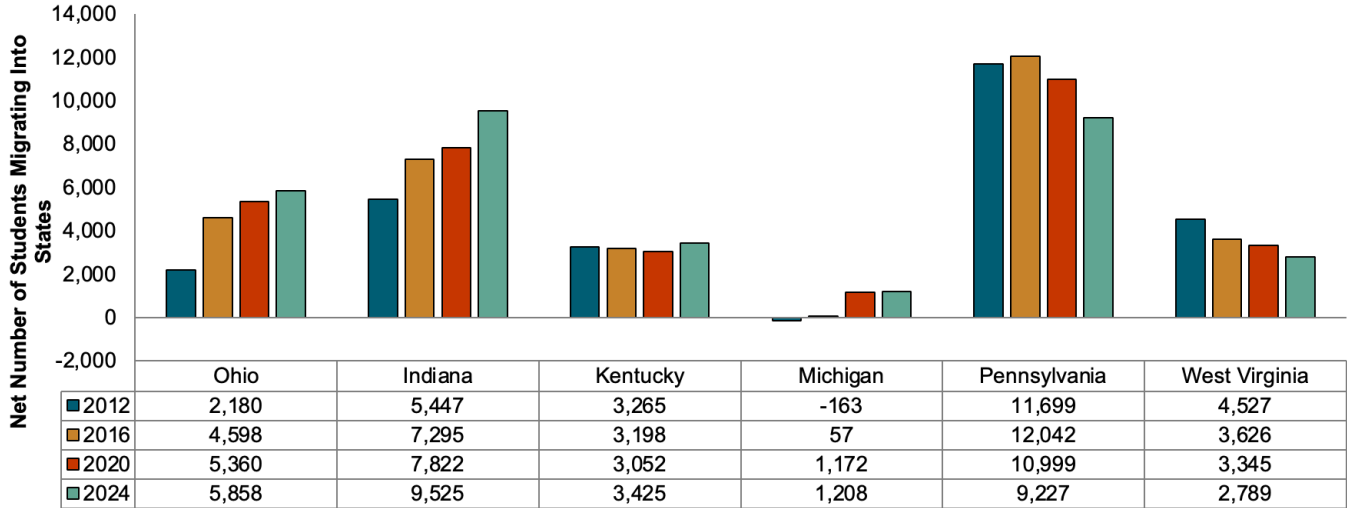

Source: NCES IPEDS. (2024). *Reported 12-month enrollment*. FTE enrollment is a calculated measure of the equivalent number of full-time students represented by an institution's instructional activity over a 12-month period. It is derived from the reported credit or clock hours attempted and the institution's academic calendar system. Enrollment estimates include on- and off-campus students, dual enrollment students, and students taking distance or online courses for credit. Carnegie Classification was used to classify institutions. Institutions with mixed categories were classified according to their distribution of associate and bachelor's degrees awarded. Tribal colleges and universities are excluded. Categorizations may change over time. Explore more on the [MHEC Interactive Dashboard](#).

**MIGRATION:** More students migrate into Ohio than migrate out.

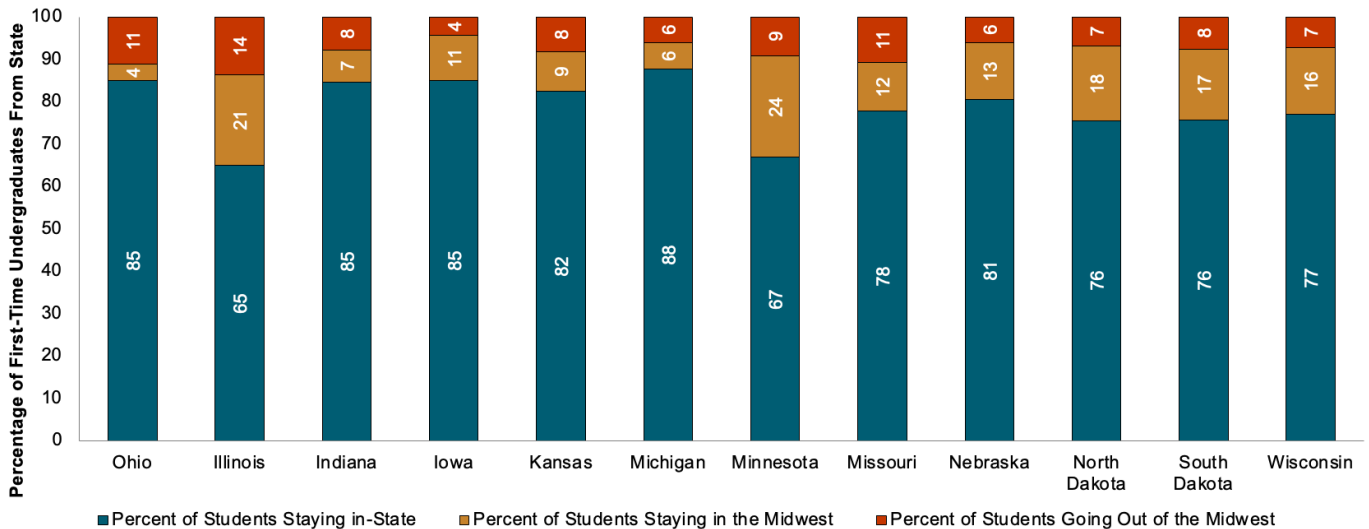

**Net In-Migration of High School Graduates Who Enrolled in a Postsecondary Institution in the Fall Term Immediately Following High School Completion**

Source. NCES IPEDS. (2024). *Fall enrollment*. Estimates include enrollment at any Title IV-participating postsecondary institution. Students with unknown residence and those entering from outlying territories and foreign countries are excluded. Explore more on the [MHEC Interactive Dashboard](#).

**ENROLLMENT LOCATION:** Of first-time college students from Ohio, 85 percent enrolled in state, 4 percent enrolled elsewhere in the Midwest, and 11 percent enrolled outside the Midwest.

**Regional Migration of High School Graduates Who Enrolled in a Postsecondary Institution In Fall 2024 Immediately Following High School Completion**

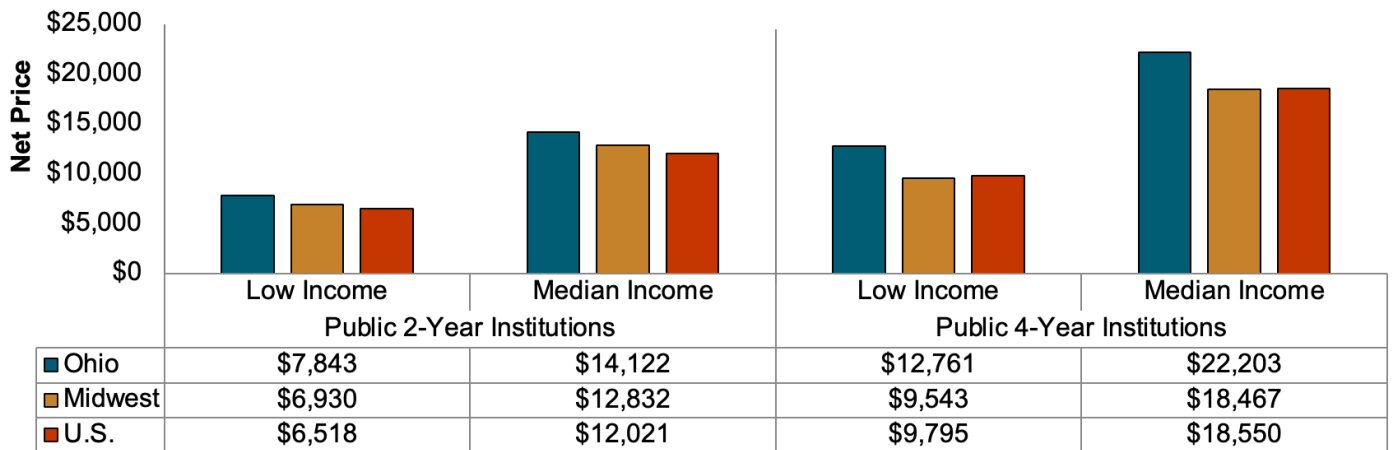

Source. NCES IPEDS. (2024). *Fall enrollment*. Estimates include enrollment at any Title IV-participating postsecondary institution. Students with unknown residence and those entering from outlying territories and foreign countries are excluded. Explore more on the [MHEC Interactive Dashboard](#).

**COLLEGE PRICE:** Average net prices for low- and median-income students at Ohio public two- and four-year institutions are higher than the Midwest and national averages.

**Average Net Price of One Year of Enrollment for First-Time, Full-Time, Degree/Certificate-Seeking Students by Family Income and Sector**

Source. NCES IPEDS. (2024). *Net price*. U.S. Census Bureau. (2024). *American Community Survey one-year estimates, Table B19125: Median family income in the past 12 months by presence of own children under 18 years*. Note. Net price is standardized to first-time, full-time, degree/certificate-seeking students for comparative analysis and should not be interpreted as the typical price paid by all students, particularly in the two-year sector, where part-time students constitute a large share of enrollment. Total cost of attendance includes in-state or in-district published tuition and required fees, books, supplies, food, on-/off-campus housing, and other expenses. The net price of attendance for a median-income family represents the amount a family with an income of \$93,781 must pay for college. The net price of attendance for a low-income family represents the amount a family with an income of \$30,000 or less must pay for college. Estimates are weighted by income group of first-time/full-time students. Carnegie Classification was used to classify institutions. Institutions with mixed categories were classified according to their distribution of associate and bachelor's degrees awarded. Tribal colleges and universities are excluded. Explore more on the [MHEC Interactive Dashboard](#).

# Ohio Technology Contract Usage

Total savings for institutions in Ohio = \$2,319,096

## Ohio Program Participation as of 12/10/25

When members identify the need for solutions to challenges in postsecondary education, MHEC explores whether a long-term, regional approach is beneficial. Programs born from this process offer enrolling institutions opportunities to save money, improve efficiency, and better serve their stakeholders.
